## **Society of Women Engineers Policy for Clubs (Students ages 11-18) Seeking SWE Affiliation and Branding**

The Society of Women Engineers is committed to creating an inclusive environment for all our members and stakeholders. SWE values the contributions of a diverse membership, which enables the Society to achieve its full potential. To this extent, SWE is pleased to offer clubs the opportunity to affiliate and brand themselves with the Society of Women Engineers, provided all of the following conditions are satisfied and maintained:

1. The organization is advised by at least one registered member of the Society. This member may be a [Educator member of the Society](#).
2. The club must maintain their operations and images in such a way that is consistent with mission and core values of the Society.
3. Any use of the Society of Women Engineers logo, name, or brand must be used in accordance with the SWE Logo Policy and Guidelines, available [here](#).

A club does not need to have the direct support, participation or endorsement of a SWE section or region in order to affiliate themselves as set forth above. While it is highly valuable and desirable for a club to work with a section and/or a region, it is not a requirement for affiliation.
