

Advocacy - Research and Stats

Research and Stats

SWE uses many different methods to track the advancement of our mission and the success of our programs. Third party research found in this section of our web site focuses on statistics related to women in the workplace, women enrolling in engineering and a variety of resources available for those interested in diversity initiatives.

Additional links for research and statistics

-

National Science Foundation's Women, Minorities, and Persons with Disabilities in Science and Engineering 2009 Report is an online resource that provides information about the participation of women, minorities, and persons with disabilities in science and engineering education and employment.

-

The WEPAN Knowledge Center is an online resource for research and best practices for advancing women in engineering.

If you have any specific requests or questions please contact SWE Headquarters.
